Earth observation (EO) sensors deliver data at daily or weekly intervals. Most land use and land cover classification (LULC) approaches, however, are designed for cloud-free and mono-temporal observations. The increasing temporal capabilities of today ' s sensors enable the use of temporal, along with spectral and spatial features.Domains such as speech recognition or neural machine ...

Abstracts — Geotechnical and Environmental Research Group

ABSTRACT India is a well developing country at the same time lots of crime rates were increasing nowadays. There are lots of legislation in India to stop and control crimes, even though the crime rates are increasing because the punishments are not sufficient for the crimes.The punishment should be severe to reduce the crime rate.
