Manual Runtime Calibration for APC UPS - APC UPS Blog ...

Calibration is initiated from Power Chute Business Edition, the Network Management Card, or the LCD Screen of the UPS (if so equipped). Depending on your Software, Firmware, or Hardware revision the exact wording may vary slightly: Business Edition - Click on the name of your UPS, then select Diagnostics.

How do I perform a Battery Calibration on my Smart-UPS?

Manual Calibration: This is the preferred method for "SU" series Smart-UPS, or any time that a User Commanded Calibration is not possible Stop the Power Chute software from running and disconnect the serial, USB, or Ethernet cable (s).

How do I perform a Battery Calibration on my Smart-UPS?

Apc Ups Calibration Manual During normal operation, your Smart-UPS will display an estimated runtime via the software, network management card, or LCD screen. This runtime will vary depending on the load attached, the battery charge, and the age of the batteries. Performing a calibration forces the UPS on battery, drains the battery down, and charges it back up. APC Smart-UPS 700 120V - APC ...

A runtime calibration is required at initial start-up, when additional batteries are added, old batteries are replaced or if the estimated runtime is found to be inaccurate. Do not use old batteries (two or more years old), and new batteries together. Refer to the Perform a UPS Runtime Calibrationsection in this manual for calibration criteria.

Installation and Operation

If you do a manual calibration, you won't need to wait for the UPS to say 100% vs. 99% but you'll need to sit and watch the UPS and make sure you reapply AC power to it when its complete. The software command will discharge the UPS down to 10-20% and charge itself back up with out you sitting there.

This book offers you a brief, but very involved look into the operations in the drilling of an oil & gas wells that will help you to be prepared for job interview at oil & gas companies. From start to finish, you'll see a general prognosis of the drilling process. If you are new to the oil & gas industry, you'll enjoy having a leg up with the knowledge of these processes. If you are a seasoned oil & gas person, you'll enjoy reading what you may or may not know in these pages. This course provides a non-technical overview of the phases, operations and terminology used on offshore drilling platforms. It is intended also for non-drilling personnel who work in the offshore drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of drilling operations, with a particular focus on the unique aspects of offshore operations.
