<b>This book presents a dynamic history of the ways in which translators are trusted and distrusted. Working from this premise, the authors develop an approach to translation that speaks to historians of literature, language, culture, society, science, translation and interpreting. By examining theories of trust from sociological, philosophical, and historical studies, and with reference to interdisciplinarity, the authors outline a methodology for approaching translation history and intercultural mediation from three discrete, concurrent perspectives on trust and translation: the interpersonal, the institutional and the regime-enacted. This book will be of particular interest to students and scholars of translation studies, as well as historians working on mediation and cultural transfer.</b>

The incomparable Jonathan Lethem returns with nine stories that demonstrate his mastery of the short form. Jonathan Lethem 's third collection of stories uncovers a father 's nervous breakdown at SeaWorld in " Pending Vegan " ; a founding child rescued from the woods during a blizzard in " Traveler Home " ; a political prisoner in a hole in a Brooklyn street in " Procedure in Plain Air " ; and a crumbling, haunted " blog " on a seaside cliff in " The Dreaming Jaw, The Salivating Ear. " Each of these locates itself in Lethem-land, which can be discovered only by visiting. As in his celebrated novels, Lethem finds the uncanny lurking in the mundane, the irrational self-defeat seeping through our upstanding pursuits, and the tragic undertow of the absurd world(s) in which we live. Devoted fans of Lethem will recognize familiar themes: the anxiety of influence taken to reductio ad absurdum in " The King of Sentences " ; a hapless, horny outsider summoning bravado in " The Porn Critic " ; characters from forgotten comics stranded on a desert island in " Their Back Pages. " As always in Lethem, humor and poignancy work in harmony, humans strive desperately for connection, words find themselves misaligned to deeds, and the sentences are glorious.

An ancient evil is unleashed in the modern world— unless one fearless P.I. can hunt it down. . . . Nikki Glass, Immortal Huntress, returns in this new novel in the acclaimed series by Jenna Black. As a living descendant of Artemis the Huntress, private investigator Nikki Glass knows how to track someone down. But when an Oracle shows up, warning the Descendants about wild dog attacks in Washington, D.C., Nikki is afraid it might be a trap. The Olympians believe the " dogs " are really jackals, controlled by a blood-crazed descendant of the Egyptian death-god Anubis. Whatever. . . . If Nikki hopes to muzzle Dogboy, she 's got to catch him in the act. But when she stakes out a local cemetery, she ends up face-to-snout with a snarling pack of shadow-jackals whose bite is worse than their bark. These hellhounds are deadly—even for an immortal like Nikki. " Dog " spelled backward may be " god, " but that won 't stop Nikki from teaching these old gods some new tricks. Like playing dead.

The main goal is to offer readers a panorama of recent progress in nonlinear physics, complexity and transport with attractive chapters readable by a broad audience.
