To calculate the resistance value, you need to group the values of the significant digits bands – i.e., the values of the first two or three bands from the left, depending on the total number of bands. Then you need to multiply that value by the multiplier to get the resistance value of the resistor.

Resistor Color Code Calculator
This calculator automatically adjusts for differences in height, age and gender, calculating a child's height percentile along with blood pressure percentile. The normal blood pressure range, while steadily increasing with age, will shift based on the child's height. The BP reference data include the 50th, 90th, 95th, and 99th percentiles for ...
