engrossing book that the current conception of American history, as gained from the text-books and manuals in common use, is singularly narrow and one-sided. The story of the magnificent pioneering exploits of the Spaniards, and of our own subsequent conquest and development of the vast Western and Southwestern territory which they were the first to enter and to settle, has been curiously neglected. There is no chapter in this story that is richer in the essential elements of romance, or of greater and more absorbing interest to the American reader, than the one contained in Colonel Inman's book. The Old Santa Fe Trail was once the great highway from the lower Missouri River to New Mexico. The first European to traverse it was De Vaca a Spanish explorer of the sixteenth century. De Vaca was the precursor of the later caravans of pack-mules and " prairie schooners," which in their turn gave way to the swift trains of the great Atchison, Topeka and Santa Fé Railway, which now spans the continent, and for nigh a thousand miles of its romantic course parallels and often coincides with the Old Trail. Thus the tourist who is whirled in a palace car over this route is traversing storied ground, where nearly every stream and hill and dale has its tale of peril or adventure. The thrilling story of the Old Trail and its doughty heroes is told sympathetically and in full detail by Colonel Inman. His book has a distinct historical value, and it is as readable as a romance of Scott or Stevenson. It is a book wherein American patriotism and national pride may find true nourishment; and therefore it is a book that every American youth ought to read.

HENRY INMAN (1837-1899), Union soldier, veteran of the Indian Wars, author of books on the West, was born in New York City, the son of famous painter Henry Inman. At 20 years of age, he joined the US Army, and as a private (later a corporal) in the 9th Infantry served for four years in the Native American disturbances in Oregon and California. When the Civil War started he was transferred to the 17th Infantry, Army of the Potomac, and became a first lieutenant in 1862. At the end of the Civil War he was sent to Kansas, where he distinguished himself in the Indian campaigns, attaining the brevet of lieutenant-colonel in February 1869. On July 24, 1872, he was cashiered from the army. In 1878 Inman took over a Kansas newspaper, the Larned Enterprise. In 1882 he became manager of the Kansas News Agency at Topeka and was subsequently employed on various newspapers in the state. His great interest in the Western frontier prompted the writing of a number of historical sketches of adventure which in 1881 were published in book form as "Stories of the Old Santa Fe Trail." The iconic shape and appearance of a streamline aluminum trailer sitting at a campsite or being pulled down the highway has captivated collectors and vacationing hobbyists for nearly 90 years. During this time, the exterior appearance of the trailer has changed very little, so recollections can range from seeing a 1937 Dodge Pickup to a 1969 Impala hauling one of these beauties. Today, restored rarities from Airstream, Silver Streak, Boles Aero, Clipper, and Spartan can command as much as \$100,000 in the marketplace. These trailers have become symbols of American pop culture for several generations. Until now, very little information has been available to help you when it comes to restoring and updating one of these trailers. Daniel Hall, of the vintage restoration company Camper Reparadise, addresses all items of streamline trailer restoration thoroughly in this one-stop-shopping book. Details on your trailer and how to restore it are covered from trailer tongue to trailing bumper. Key restoration components including chassis, floor, exterior/interior skin, electrical elements, insulation, doorjamb refabrication, LP, plumbing, and polishing are all covered comprehensively in a visual, step-by-step format. Whether you're a collector car enthusiast, resident of a trailer campground, or a vacationing addict, owning this restoration guide will be an essential tool in keeping your trailer active, updated, and in immaculate condition.

Old campers have an appeal that reaches back in time and can send your imagination soaring. Let's face it: they are cool. Who hasn't seen one parked on a boulevard with a "for sale" sign and pictured it bouncing along behind the family car, ready for adventure and fun? Unfortunately, campers are not quite homes, they are not quite cars, and they have their own unique systems and demands that make fixing and upgrading a challenge. Even if you have plenty of DIY experience, a camper speaks a foreign language. Consider Camper Rehab your Rosetta Stone for the language of Shasta, Dutchmen, or Airstream. This book is a top-to-bottom guide to getting a fifth-wheel, teardrop, or other camper trailer ready for the road and beyond. From basic troubleshooting to electrical and plumbing projects, replacing interior surfaces, and clever (sometimes "retro") decorating ideas, this book uses detailed illustrations, color photography, and a wealth of step-by-step, how-to information to get help you get your travel trailer into shape for your next big--or little--adventure. And in case you haven't pulled the trigger on that trailer you're eying on Craigslist just yet, Camper Rehab also walks you through the process of evaluating a potential purchase, identifying which issues are fixable and which are dealbreakers, as well as how to spot hidden problems. Written by accomplished DIY author Chris Peterson, whose light and approachable tone is coupled with the hardworking DIY information you need, Camper Rehab is a must-have for any camper owner or dreamer.

The changing fortunes of the largest UK producer of caravans and motorhomes

From shabby chic to rock 'n' roll heaven, restful craft room retreats to road-tripping travelling vans; from on-site artist studios and relaxing, reflective retreats, to travelling markets stalls and family summer holiday abodes; and from chandelier-clad glamping venues to the pride and joy of long-term nomadic lifestylers - there's a dream vintage caravan for everyone. Vintage Caravan Style takes the reader on a visual voyage through the world of vintage and retro caravans, exploring both the exterior and interior design of these classic icons. The book reveals the huge resurgence of interest in modern-vintage caravans - whether used for touring or as creative backyard spaces - and reveals how you can buy, restore and style a little capsule of retro heaven. Over 350 beautiful and inspirational photos sit alongside practical tips on restoring, upcycling, decorating and styling the small spaces of your dreams - whether you own a caravan, beach hut, shepherd's hut or even a shed - satisfying the desire to see inside other people's spaces and take inspiration from the small but perfectly formed spaces they have created.

On February 1, 2003, the unthinkable happened. The space shuttle Columbia disintegrated 37 miles above Texas, seven brave astronauts were killed and America's space program, always an eyeblink from disaster, suffered its second catastrophic in-flight failure. Unlike the Challenger disaster 17 years earlier, Columbia's destruction left the nation one failure away from the potential abandonment of human space exploration. Media coverage in the immediate aftermath focused on the possible cause of the disaster, and on the nation's grief. But the full human story, and the shocking details of NASA's crucial mistakes, have never been told -- until now. Based on dozens of exclusive interviews, never-before-published documents and recordings of key meetings obtained by the authors, Comm Check takes the reader inside the conference rooms and offices where NASA's best and brightest managed the nation's multi-billion-dollar shuttle program -- and where they failed to recognize the signs of an impending disaster. It is the story of a space program pushed to the brink of failure by relentless political pressure, shrinking budgets and flawed decision making. The independent investigation into the disaster uncovered why Columbia broke apart in the sky above Texas. Comm Check brings that story to life with the human drama behind the tragedy. Michael Cabbage and William Harwood, two of America's most respected space journalists, are veterans of all but a handful of NASA's 113 shuttle missions. Tapping a network of sources and bringing a combined three decades of experience to bear, the authors provide a rare glimpse into NASA's inner circles, chronicling the agency's most devastating failure and the challenges that face NASA as it struggles to return America to space.
