The CPC Exam Study Guide has been updated for 2018! It includes a 150 question practice exam, answers with full rationale, Medical Terminology, Common Anatomy, The Exam Study Guide, Secrets to Reducing Exam Stress, and Scoring Sheets. It is designed for students preparing for the medical coding certification exam after January 1, 2018. ***** Look at what some students had to say after using our practice exams ***** "I just wanted to let you know that I was preparing for the CPC exam and took a practice exam and only made a 70%. I was somewhat skeptical of purchasing your strategies and practice in fear it would not help. Reluctantly, I purchased your product (a practice exam and the strategies to pass) before sitting for the CPC exam. I received my results yesterday. I MADE A 92! I used all of the strategies you recommended (time management, highlighting, etc), which made all the difference in the world. Thank you so much!!!" - Heather T. "This is very good... I used your practice exam bundle and passed the first time. I also recommended this to others preparing for the test in our organization. They ordered and felt it was of great value. I especially appreciated the explanation for the answers which helped me learn while I corrected the test. When I took the practice test, I set a timer for 5 hr 40 min. and was able to complete in 3 hours with a score of 89%." - Linda B, CPC. "I purchased your practice exam package and think it's great. Using your tips, I completed all 150 questions in 297 minutes and scored an 84%." - Elizabeth H. "I am thrilled to report Greg that I passed my CPC Exam on December 12th!" - Kathleen C. "Your test was amazing, it help me out a lot." - Vickey L. "Well the practice test helped me pass my CPC exam. I got he good news last week!" - Erica J. "I wanted to thank you for the CPC practice exam. Thanks to the practice I was able to pass the CPC and CCA exams on the first take. Your exam really helped me work on timing and the lab questions were especially helpful." - Mark T. "Woohooooo, I passed! I also went for the Medical Administration certificate and passed that as well. Thanks for all your hints and practice exams to help me pass. Wow I am glad that's over. Thanks again!" - Deanna A. "I did purchase the practice exam from you before the new year and I passed my CPC. I found out literally new years eve! Thanks for the great exam!" - Sabrina. "I took the CPC exam Dec. 7. As a matter of fact, I did pass the CPC exam and your practice exam helped. Thanks! Go ahead and list my name in your Certified Coders section." - Lester B. "I have passed the CPC and thank you for all of your help with the preparation materials." - Victoria S.

The CPC exam is comprised of 150 multiple-choice questions. The test takes five hours and 40 minutes to complete, making it fairly rigorous. There are two breaks in the middle of the test. The CPC exam costs \$300 to take, but only \$260 if the test-taker is a member of the AAPC (annual dues are \$125 for individuals and \$70 for students).The CPC exam thoroughly tests a coder's grasp of the entire coding process, from medical terminology to code sets and

beyond. Per the AAPC's website, the CPC exam covers 24 subject areas, including anesthesia, radiology, and medicine. You should recognize a number of these (like Evaluation and Management, or Radiology) as sections of the CPT code manual. Others, like Anatomy and Physiology, are parts of the coder's everyday skill set. You should note that the questions on the exam are not divided or identified by the topic they are related to. That is, questions on the CPC exam will test you on all of the above 24 fields of medical coding, but they won't outright say, "This is an anesthesia question." Instead they'll just ask you about anesthesia, or surgery, or human anatomy. During the test, you'll be presented with a number of test cases pertaining to the practice of coding. These test case questions will present you with a condensed medical report and ask you to select the correct set of codes from the answers below. For instance, a test case question might read: "Sarah, a 45-year-old patient, visits the doctor and presents symptoms including a sore throat, swollen lymph nodes, and a fever. After performing a rapid strep test, the doctor confirms a diagnosis of streptococcal sore throat. The doctor prescribes an Amoxicillin as an antibiotic. Which of the following are the correct codes for this diagnosis, procedure and prescription?" There are also general knowledge questions, like "Which types of joints are synovial?" that don't have an attached test case. That question's related to the musculoskeletal system, but the test won't come right out and say so. You'll have to rely on your knowledge of code sets, medical terminology, best practices, and the coding process in general to pass. Individuals who earn a score of 70 percent or better (105 correct questions) will pass the CPC exam. If you fail your first test, you are allowed one free retake. **GETTING CERTIFIED** Once you pass the CPC exam, you are not officially certified by the AAPC until you fulfill a few other criteria. In order to complete a CPC certification, you must become a member of the AAPC. Certification is also limited to coders with two years of professional experience or those willing to complete an apprentice program. As such, the CPC exam is recommended for individuals who have already started their coding career. That won't prevent us from going over the basics of this important exam.

The CPC exam is a test of medical coding proficiency consisting of 150 multiple-choice questions that assess 17 areas of knowledge. Most questions present a coding scenario to test proper application of CPT(R) procedure codes, HCPCS Level II supply codes, and ICD-10-CM diagnosis codes-all of which medical providers use to submit claims to payers. During the test, you will reference approved coding books-the AMA's CPT(R) Professional Edition, as well as your choice of ICD-10-CM and HCPCS Level II code manuals. You must complete the CPC exam within 5 hours and 40 minutes and answer 70% of the questions correctly to pass.

Since the CPC exam covers so many topics, it's easy to get overwhelmed in the preparation stages. Here are a couple ways of to cope with this large, intimidating exam. During the exam, you'll spend the most time with the CPT manual. While there are some questions on ICD-10-CM codes and HCPCS, there are far more questions that relate to the CPT code set, so it's good to focus your study efforts there. Know the manual back to front, and be comfortable navigating it and using its numerous appendices. Most people take the exam only after they've been working in coding for a little while (to be certified, the CPC requires a passing score and two years of professional experience, or the educational equivalent). If you've amassed that experience, you should be relatively familiar with medical terminology and anatomy and physiology. Still, it's a very good idea to brush up with this through flash cards or review courses. There will be questions on the exam that explicitly reference medical or anatomical terminology (questions like, "What kind of joint is this?"), but having a strong medical vocabulary will help you in deciphering other questions as well. Once you've studied up, be sure to take advantage of as many practice exams as you can. Treat these exams like real tests: study extensively for them, time yourself as you take them, and then note which questions, and more importantly what type of questions, you regularly get wrong. On your first test, did you struggle with the Anesthesia codes? Go back over that section. Were you sloppy with your ICD-10-CM codes? Review the ICD-10-CM manual. A number of private companies have practice CPC exams, but the AAPC's practice exams are probably your best bet. Don't treat practice exams as formalities or wastes of time. Many practice exams can be easier than the actual exam, but you should still take them seriously. You should try and score at least an 80% on a practice exam before you take the real CPC exam. **TAKING THE TEST** When you take the CPC exam, you're allowed to bring in each of the code manuals (the ICD, CPT, and HCPCS manuals). You're allowed to have notes in the margins of these manuals, but these notes can't contain any test-specific information. You are also not allowed to tape anything into these manuals. It's a good idea to mark the important or frequently used sections of your code manuals. The CPT manual, for instance, comes with a number of tabs you can place in the book to mark certain important places. Use these to mark off where code sections begin (like the Surgery or Medicine sections in the CPT manual), and where to find certain appendices. When you're taking the CPC exam, you'll be asked to perform though you were coding at your regular coding job, so set up your manual in the way that makes the most sense for you. Also be aware that each manual has loads of helpful information beyond the codes. The CPT manual has a number of diagrams of the human body, including illustrations of the ocular system and adnexa, the musculoskeletal system, the nervous system and much more. Mark these pages and refer to them during the test if you're stumped on a question pertaining to anatomical terminology.
