Problem Solving

The Third edition of Data Abstraction and

Problem Solving with Java: Walls and

Mirrors employs the analogies of Walls

(data abstraction) and Mirrors (recursion)

to teach Java programming design solutions,

in a way that beginners find accessible.

Readers will gain a solid foundation in data

abstraction, object-oriented programming,

and other problem-solving techniques.

Solving With Java Walls

Data Abstraction and Problem Solving with  
Java: Walls and ...

The “ walls and mirrors ” mentioned in the title represent problem-solving techniques that appear throughout the text. Data abstraction hides the details of a module from the rest of the program, whereas recursion is a repetitive technique that solves a problem by solving smaller versions of the same problems, much as images in facing mirrors grow smaller with each reflection.
