If I can summarise Caputo (deconstruction in a nutshell in a nutshell...), deconstruction is about eyeing the contradictions and gaps (différence (s)) within a text. It is an invitation to push against a text's limits, seeking the paradoxical or tangential within it in order to draw out fresh inferences, fresh meanings from it.

Deconstruction is explored: first as an idea in a nutshell, second as a right to philosophy, then against Plato's khora, then against the idea of community, then against justice, and against Joyce and messianism.

By showing that the paradoxical 'deep structure' of Jesus' most radical teachings survives the Death of God and the deconstruction of metaphysics in twentieth-century continental philosophy, this book aims to reconstruct the original teachings of Jesus in a way that can begin a new conversation on what it means to be a Christian in a post-Christian world, while drawing on a remarkable range of supporting material, including John D. Caputo's award-winning theological appropriation of Derrida ...

Deconstruction in a Nutshell: A Conversation with Jacques ...

Deconstruction is not a process to be externally 'forced' upon a subject, but is rather a naturally unfolding, subjective event, apparently with no beginning or obvious end. It is not a theory as such, although it has suffered from this malady in modern times.

Responding to questions put to him at a Roundtable held at Villanova University in 1994, Jacques Derrida leads the reader through an illuminating discussion of the central themes of deconstruction. Speaking in English and extemporaneously, Derrida takes up with unusual clarity and great eloquence such topics as the task of philosophy, the Greeks, justice, responsibility, the gift, the community, the distinction between the messianic and the concrete messianisms, and his interpretation of James Joyce. Derrida convincingly refutes the charges of relativism and nihilism that are often leveled at deconstruction by its critics and sets forth the profoundly affirmative and ethico-political thrust of his work. The "Roundtable" is marked by the unusual clarity of Derrida's presentation and by the deep respect for the great works of the philosophical and literary tradition with which he characterizes his philosophical work. The Roundtable is annotated by John D. Caputo, the David R. Cook Professor of Philosophy at Villanova University, who has supplied cross references to Derrida's writings where the reader may find further discussion on these topics. Professor Caputo has also supplied a commentary which elaborates the principal issues raised in the Roundtable. In all, this volume represents one of the most lucid, compact and reliable introductions to Derrida and deconstruction available in any language. An ideal volume for students approaching Derrida for the first time, Deconstruction in a Nutshell will prove instructive and illuminating as well for those already familiar with Derrida's work.

This volume, now with a substantial new Introduction, represents one of the most lucid, compact and reliable introductions to Derrida and deconstruction available in any language. Responding to questions put to him at a roundtable held at Villanova University in 1994, Jacques Derrida leads the reader through an illuminating discussion of the central themes of deconstruction. Speaking in English and extemporaneously, Derrida takes up with unusual clarity and great eloquence such topics as the task of philosophy, the Greeks, justice, responsibility, the gift, community, and the messianic. Derrida refutes the charges of relativism that are often leveled at deconstruction by its critics and sets forth the profoundly affirmative and ethico-political thrust of his work. The roundtable is marked by an unusual clarity that continues into the second part of the book, in which one of Derrida's most influential readers, John D. Caputo, elaborates upon Derrida's comments and supplies material for further discussion. This edition also includes a substantial new Introduction by Caputo that discusses the original context of the book and traces the development of deconstruction since Derrida's death in 2004, from the rise of new materialisms to return to religion. Long one of the most lucid and reliable introductions to Derrida and deconstruction available in any language, and an ideal volume for students, Deconstruction in a Nutshell will also prove illuminating for those already familiar with Derrida's work.

Publisher Provided Annotation "Caputo succeed in providing scholars with one of the most comprehensive & valuable interpretation of deconstruction."--Library Journal "In a nutshell, this is a wonderfully helpful & stimulating book...It is a congenit, witty & always accessible discussion of Derrida's work of the past ten of twenty years...This is one of the best guides available of his recent work...Highly recommended."--Choice.

"The English version of Dissemination [is] an able translation by Barbara Johnson Derrida's central contention is that language is haunted by dispersal, absence, loss, the risk of unmeaning, a risk which is starkly embodied in all writing. The distinction between philosophy and literature therefore becomes of secondary importance. Philosophy vainly attempts to control the irrecoverable dissemination of its own meaning, it strives—against the grain of language—to offer a sober revelation of truth. Literature—on the other hand—flaunts its own meretriciousness, abandons itself to the Dionysiac play of language. In Dissemination—more than any previous work—Derrida joins in the revelry, weaving a complex pattern of puns, verbal echoes and allusions, intended to 'deconstruct' both the pretension of criticism to tell the truth about literature, and the pretension of philosophy to the literature of truth."—Peter Dews, New Statesman

This provocative addition to The Church and Postmodern Culture series offers a lively rereading of Charles Sheldon's *In His Steps* as a constructive way forward. John D. Caputo introduces the notion of why the church needs deconstruction, positively defines deconstruction's role in renewal, deconstructs idols of the church, and imagines the future of the church in addressing the practical implications of this for the church's life through liturgy, worship, preaching, and teaching. Students of philosophy, theology, religion, and ministry, as well as others interested in engaging postmodernism and the emerging church phenomenon, will welcome this provocative, non-technical work.

Few thinkers of the latter half of the twentieth century have so profoundly and radically transformed our understanding of writing and literature as Jacques Derrida (1930–2004). Derridian deconstruction remains one of the most powerful intellectual movements of the present century, and Derrida's own innovative writings on literature and philosophy are crucially relevant for any understanding of the future of literature and literary criticism today. Derrida's own manner of writing is complex and challenging and has often been misrepresented or misunderstood. In this book, Leslie Hill provides an accessible introduction to Derrida's writings on literature which presupposes no prior knowledge of Derrida's work. He explores in detail Derrida's relationship to literary theory and criticism, and offers close readings of some of Derrida's best known essays. This introduction will help those coming to Derrida's work for the first time, and suggests further directions to take in studying this hugely influential thinker.

The authors cover difficult situations in both personal and professional life.

Newly available in paperback, this book traces a close engagement with Derrida's writing over two decades examining the relationship between deconstruction, literature and ethics.

Radical Hermeneutics forges a closer collaboration between hermeneutics and deconstruction than has previously been attempted. For John D. Caputo, hermeneutics means radical thinking without transcendental justification: attending to the ruptures and irregularities in existence before the metaphysics of presence has a chance to smooth over them.
