"God Explained in a Taxi Ride" by Paul Arden is one of his many motivational books published and meant to drive home the solution in as few words as possible. He takes one very heavy topic and explains it in the bluntest of terms. "God Explained..." is no exception to this rule. Think about it.

Desde sus orígenes la humanidad ha intentado entender a Dios, y seguimos sin saber nada nuevo. En un simple trayecto de taxi y con este librito de mano, el lector finalmente verá un poco de luz.

A physicist uses science and philosophy to answer the ancient, unsolvable question: why does the universe exist?

The Great Gatsby (1925) is a novel by F. Scott Fitzgerald. Published at the height of Fitzgerald's career as a leading writer of American fiction, The Great Gatsby was reviewed poorly by contemporary critics, but has since been recognized as a groundbreaking work for its vision of American decadence and decay. Adapted into several influential films and adored by generations of readers and writers, The Great Gatsby is not only Fitzgerald's crowning achievement, but one of the finest novels ever written. Nick Carraway is a young veteran and Yale graduate who moves to New York in search of work. He rents a bungalow on Long Island next door to the extravagant mansion of Jay Gatsby, a magnanimous millionaire with a mysterious past. There, he reconnects with his distant cousin Daisy and her husband Tom Buchanan, a flagrant philanderer who brings Nick to the city in order to spend time with Myrtle, his impoverished mistress. Soon, he receives an invitation to a party at the Gatsby mansion, where he gets terribly drunk and meets his neighbor, who swears they served together in the Great War. As time goes by, the two begin a tenuous friendship bolstered by stories of the war and a mutual fondness for alcohol. When Nick discovers that Gatsby and Daisy have a complicated history with one another, he starts to question not only the nature of his neighbor's kindness, but his own desire to make it big in New York. The Great Gatsby is a tragic tale of ambition and romance set in the Roaring Twenties, a decade born from war and lost to economic disaster. With a beautifully designed cover and professionally typeset manuscript, this new edition of F. Scott Fitzgerald's The Great Gatsby is a classic work of American literature reimagined for modern readers.

Addresses the nature of human religious belief in a series of vignettes and questions that explore humankind's relationship to the divine, from ancient times to the present, in the context of a taxi ride.

Most recent books about Chiapas, Mexico, focus on political conflicts and the indigenous movement for human rights at the macro level. None has explored those conflicts and struggles in-depth through an

individual woman's life story. The Journey of a Tzotzil-Maya Woman of Chiapas, Mexico now offers that perspective in one woman's own words. Anthropologist Christine Eber met "Antonia" in 1986 and has followed her life's journey ever since. In this book, they recount Antonia's life story and also reflect on challenges and rewards they have experienced in working together, offering insight into the role of friendship in anthropological research, as well as into the transnational movement of solidarity with the indigenous people of Chiapas that began with the Zapatista uprising. Antonia was born in 1962 in San Pedro Chenalhó, a Tzotzil-Maya township in highland Chiapas. Her story begins with memories of childhood and progresses to young adulthood, when Antonia began working with women in her community to form weaving cooperatives while also becoming involved in the Word of God, the progressive Catholic movement known elsewhere as Liberation Theology. In 1994, as a wife and mother of six children, she joined a support base for the Zapatista Army of National Liberation. Recounting her experiences in these three interwoven movements, Antonia offers a vivid and nuanced picture of working for social justice while trying to remain true to her people's traditions.

Self that require solicitude, he indicates the direction from the self to the other and clarifies moral problems that appear to founder on the issue of identity. His identification of the nonpersonal concept of the self with the concept of the other thus exposes the key to the Moral Law. Oneself as Another expands on the Gifford Lectures that Ricoeur gave in Edinburgh in 1986 and published in French in 1990. It will be widely discussed among philosophers, literary.

A new trade edition of Sartre's magnum opus. First published in 1943, this masterpiece defines the modern condition and still holds relevance for today's readers.

Originally published in hardcover in 2005.

After an almost fatal car crash, novelist Paul Sheldon finds himself being nursed by a deranged fan who holds him captive.

A simple yet powerful method of communication for mediating conflicts and peacefully resolving differences at the political, professional, and personal levels.
