Knowledge of legal language and the ability to use it effectively are essential requirements for students who have chosen to study law. A comprehensive course in English specially prepared for undergraduate students of law, this book aims to train students in both these aspects.

This textbook provides an accessible introduction to the study of word-formation, that is, the ways in which new words are built on the bases of other words (e.g. happy - happy-ness), focusing on English. The book's didactic aim is to enable students with little or no prior linguistic knowledge to do their own practical analyses of complex words. Readers are familiarized with the necessary methodological tools to obtain and analyze relevant data and are shown how to relate their findings to theoretical problems and debates. The book is not written in the perspective of a particular theoretical framework and draws on insights from various research traditions, reflecting important methodological and theoretical developments in the field. It is a textbook directed towards university students of English at all levels. It can also serve as a source book for teachers and advanced students, and as an up-to-date reference concerning many word-formation processes in English.

Literature and Language Teaching is for teachers and trainers who want to incorporate literature into the language classroom. It is suitable for teacher trainers, teacher development groups or teachers working on their own. This book contains tasks and activities which encourage reflection on some of the issues and debates involved in using literature in the language classroom and explore different approaches to using literature with teenage and adult learners at all levels. It suggests criteria for selecting and evaluating materials for classroom use and identifies some of the distinctive features of novels, short stories, poems and plays so that these can be successfully exploited in the classroom. A wide range of practical ideas and activities for developing materials is provided. Tasks also encourage the observation and assessment of lessons using literacy texts, and draw on English language material by a variety of authors from all over the world.
