Cambridge IGCSE Computer Science helps learners develop an interest in computational thinking and an understanding of the principles of problem-solving using computers. They apply this understanding to create computer-based solutions to problems using algorithms and a high-level programming language. Learners also develop a range of technical skills, and the ability to effectively test and evaluate computing solutions.

Cambridge IGCSE Computer Science (0478)

This syllabus is graded from 9 to 1 but is otherwise the same as Cambridge IGCSE Computer Science (0478). You will find additional past papers and other resources on the web page for Cambridge IGCSE
