Engineering Management is a specialized form of management that is required to successfully lead engineering or technical personnel and projects. The term can be used to describe either functional management or project management. Engineering managers typically require training and experience in both general management and the specific engineering disciplines that will be used by the engineering team to be managed.

You'll get a solid grounding in managerial essentials within engineering including logistics and supply chain management, manufacturing and production systems design, product development, quality assurance and project management.

~~Engineering Management MSc | Brunel University London~~

In the past, management engineers have designed systems for control. Today they are designing systems that support change. With this shift, there is also a switch from a project or department focus to a systems focus that inevitably involves multiple departments and disciplines. Management engineering utilizes industrial engineering knowledge and skills to provide internal consulting services for all departments in an organization in order to develop, implement, and monitor more efficient, ...
