Material Review Board (MRB) – A board consisting of authorized Supplier Quality and Engineering members necessary to review, evaluate and determine the proper disposition of nonconforming material referred to it. When and Why MRB Required? It is a system of recorded investigative checks done on failed components or processes to improve quality.

Basics of Material Review Board (MRB) - When and Why is it ...

In engineering, technical peer review is a type of engineering review. Technical peer reviews are a well defined review process for finding and fixing defects, conducted by a team of peers with assigned roles. Technical peer reviews are carried out by peers representing areas of life cycle affected by material being reviewed. Technical peer reviews are held within development phases, between milestone reviews, on completed products or completed portions of products. A technical peer review may a
