Harman Kardon® A/V receivers
are renowned for their power,
performance and ease of use, and
the AVR 7550HD will only

enhance that reputation. Among the first receivers to offer Dolby Volume technology, which automatically adjusts volume levels when switching between sources and channels, the AVR 7550HD delivers 110 watts of power to each of the seven

really keen on stretching to £ 300 for the NAD 541i/542 players, but I would like HDCD compatibility. The Harmon HD 755 is also HDCD and is £ 200, which is tempting, but there are very few reviews for the player and I don't know the brand well.
