Françoise Gilot's candid memoir remains the most revealing portrait of Picasso written, and gives fascinating insight into the intense and creative life shared by two modern artists. Françoise Gilot was in her early twenties when she met the sixty-one-year-old Pablo Picasso in 1943. Brought up in a well-to-do upper-middle-class family, who had sent her to Cambridge and the Sorbonne and hoped that she would go into law, the young woman defied their wishes and set her sights on being an artist. Her introduction to Picasso led to a friendship, a love affair, and a relationship of ten years, during which Gilot gave birth to Picasso's two children, Paloma and Claude. Gilot was one of Picasso's muses; she was also very much her own woman, determined to make herself into the remarkable painter she did indeed become. Life with Picasso, written with Carlton Lake and published in 1961, is about Picasso the artist and Picasso the man. We hear him talking about painting and sculpture, his life, his career, as well as other artists, both contemporaries and old masters. We glimpse Picasso in his many and volatile moods, dismissing his work, exultant over his work, entertaining his various superstitions, being an

anxious father. But *Life with Picasso* is not only a portrait of a great artist at the height of his fame; it is also a picture of a talented young woman of exacting intelligence at the outset of her own notable career.

Journeying to 1840s California, young Bill Marshall witnesses the tragic experiences of the California Indians and their treatment by Americans after Spain gives control of the territory to Mexico.

A follow up to Pico Iyer's essay "The Joy of Quiet," *The Art of Stillness* considers the unexpected adventure of staying put and reveals a counterintuitive truth: The more ways we have to connect, the more we seem desperate to unplug. Why might a lifelong traveler like Pico Iyer, who has journeyed from Easter Island to Ethiopia, Cuba to Kathmandu, think that sitting quietly in a room might be the ultimate adventure? Because in our madly accelerating world, our lives are crowded, chaotic and noisy. There's never been a greater need to slow down, tune out and give ourselves permission to be still. In *The Art of Stillness*—a TED Books release—Iyer investigate the lives of people who have made a life seeking stillness: from Matthieu Ricard, a Frenchman with a PhD in molecular biology who left a promising scientific career to become a Tibetan monk, to revered singer-songwriter Leonard Cohen, who traded the pleasures of the senses for several years of living the near-silent life of meditation as a Zen monk. Iyer also draws on his own experiences as a travel writer to explore why advances in technology are making us more likely to retreat. He reflects that this is perhaps the reason why many people—even those with no religious commitment—seem to be turning to yoga, or meditation, or seeking silent retreats. These aren't New Age fads so much as ways to rediscover the wisdom of an earlier age. Growing trends like observing an "Internet Sabbath"—turning off online connections from Friday night to Monday morning—highlight how increasingly desperate many of us are to unplug and bring stillness into our lives. *The Art of Stillness* paints a picture of why so many—from Marcel Proust to Mahatma Gandhi to Emily Dickinson—have found richness in stillness. Ultimately, Iyer shows that, in this age of constant movement and connectedness, perhaps staying in one place is a more exciting prospect, and a greater necessity than ever before. In 2013, Pico Iyer gave a blockbuster TED Talk. This lyrical and inspiring book expands on a new idea, offering a way forward for all those feeling affected by the frenetic pace of our modern world.

Seventeen-year-olds Maddy Fisher and Rich Ross yearn for love, and after their first attempts at relationships go awry, they find one another and form a deep bond that can only be expressed one way.

“This deeply researched, engagingly presented, and immensely valuable book demolishes longstanding myths about Mexican California as a colorful, custom-bound world apart. In place of this fantasy past, Louise Pubols offers a history of the de la Guerras that reveals a family and a society caught up in, yet not wholly overcome by, the global economic and political developments of the first half of the nineteenth century.”—Stephen Aron, Professor of History at the University of California, Los Angeles, and Executive Director of the Institute for the Study of the American West at the Autry National Center
“The Father of All combines first-rate historical analysis with in-depth archival research. Don José de la Guerra and his extended family are fascinating historical personages, and their encounters with other Californio elites provide a compelling story, but Pubols takes us to a higher level of understanding by demonstrating the crucial role of extended family ties in the economic and political history of California during the Mexican Period. Pubols provides a convincing argument that family ties kept the prevalent political unrest from breaking out into more violent civil conflict.”—Dr. Jarrell C. Jackman, Executive Director, Santa Barbara Trust for Historic Preservation

A futuristic thriller that pits teens against teens. Jemma has spent her life scavenging tools and supplies in her tribe's small enclave outside what used to be a big city. Now she's a teen, and old enough to become a Mama. Making babies is how her people survive—in Jemma's world, life ends at age seventeen. Survival has eclipsed love ever since the Parents died of a mysterious plague. But Jemma's connection to a boy named Apple is stronger than her duty as a Mama. Forced to leave, Jemma and Apple are joined in exile by a mysterious boy who claims to know what is causing them to die. The world is crumbling around them, and their time is running out. Life is short. Can they outlive it?
