Here, in one volume, is a selection of the core and essential writings by internationally renowned scholar, mystic, and author Ernest Holmes, providing readers with a library of the most important ideas in the religious psychology that Holmes defined. The Essential Ernest Holmes comprises selections from classic works such as This Thing Called You, The Science of Mind textbook, and Creative Mind and Success-but also included are brilliant passages from some of Holmes's lesser-known works, such as The Voice Celestial, as well as a generous sampling from articles and lectures. The book features remembrances of the beloved sage and teacher from the works of his contemporaries; a chronology of Holmes's life and work; and an accessible introduction by editor Jesse Jennings that frames Holmes's body of ideas for all readers.

Written and edited by some of the world's leading entrepreneurship academics, this anniversary volume showcases three of the most influential chapters from the series, along with author reflections, as well as new papers showing how these classic ideas connect and energize leading-edge contemporary research in entrepreneurship and related fields.

In this pathbreaking book, Richard D'Aveni shows how competitive moves and countermoves escalate with such ferocity today that the traditional sources of competitive advantage can no longer be sustained. D'Aveni argues that a company must fundamentally shift its strategic focus. He constructs a compre-hensive model that shows how firms move up "escalation ladders" as advantage is continually created, eroded, destroyed, and recreated through strategic maneuvering in "four arenas" of competition. Using detailed examples from hypercompetitive industries such as computers, automobiles, and pharmaceuticals, D'Aveni demon-strates how hypercompetitive firms succeed by disrupting the status quo and creating a continuous series of temporary advantages. With its emphasis on real-world experiences of corporate warfare, this abridged paperback edition of D'Aveni's masterwork will be essential reading for scholars and managers alike - a perfect introduction to the battlefield of hypercompetitive rivalries.
