While what you create using your computer is a unique expression of who you are, how you use your computer probably isn't. Nearly every Windows XP user follows the same Start menu path to launch programs, uses the same standard techniques in programs like Windows Explorer and Outlook Express, and performs the same customizations that don't go much beyond changing the wallpaper. However, there are those of us who qualify as the "post-novice" user, who think that doing things the "official" way is too slow, less efficient and less
