A critical issue in the origins of the Cold War—the development of Soviet—American conflict over Eastern Europe from 1941 to 1945—is the subject of Lynn Etheridge Davis's book. Disagreeing with those writers who argue that conflict arose from the determination of the United States to obtain economic markets in Europe or from imprecise assessments of Soviet security interests, the author describes how the United States made an initial commitment to the Atlantic Charter principles in 1941, then continued to promote the creation of representative governments in Eastern Europe without clearly identifying American interests or foreseeing the consequences of these actions. Using recently released documents of the Departments of State and War, Professor Davis explains how the views of U.S. officials on postwar peace precluded approval of Soviet efforts to establish a sphere of influence in Eastern Europe through the imposition of Communist regimes. She describes how American officials interpreted Soviet actions as intent to expand into Western Europe and how the subsequent undermining of Allied cooperation around the world led to the Cold War. Originally published in 1974. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The summation of more than two thousand years of one of the world's most august literary traditions, this volume also represents the achievements of four hundred years of Western scholarship on China. The selections include poetry, drama, fiction, songs, biographies, and works of early Chinese philosophy and history rendered in English by the most renowned translators of classical Chinese literature: Arthur Waley, Ezra Pound, David Hawkes, James Legge, Burton Watson, Stephen Owen, Cyril Birch, A. C. Graham, Witter Bynner, Kenneth Rexroth, and others. Arranged chronologically and by genre, each chapter is introduced by definitive quotes and brief introductions chosen from classic Western sinological treatises. Beginning with discussions of the origins of the Chinese writing system and selections from the earliest "genre" of Chinese literature--the Oracle Bone inscriptions--the book then proceeds with selections from: • early myths and legends; • the earliest anthology of Chinese poetry, the Book of Songs; • early narrative and philosophy, including the I Ching, Tao-te Ching, and the Analects of Confucius; • rhapsodies, historical writings, magical biographies, ballads, poetry, and miscellaneous prose from the Han and Six Dynasties period; • the court poetry of the Southern Dynasties; • the finest gems of Tang poetry; and • lyrics, stories, and tales of the Sui, Tang, and Five Dynasties eras. Special highlights include individual chapters covering each of the luminaries of Tang poetry: Wang Wei, Li Bo, Du Fu, and Bo Juyi; early literary criticism; women poets from the first to the tenth century C.E.; and the poetry of Zen and the Tao. Bibliographies, explanatory notes, copious illustrations, a chronology of major dynasties, and two-way romanization tables coordinating the Wade-Giles and pinyin transliteration systems provide helpful tools to aid students, teachers, and general readers in exploring this rich tradition of world literature.

Bogen fremstiller centrale konflikter og traktater, der efter forfatterens opfattelse har været de væsentlige årsager til den kolde krigs begyndelse.

The Cold War between the United States and the Soviet Union lasted from the end of World War II until the end of the 1980s. Over the course of five decades, they never came to blows directly. Rather, these two world superpowers competed in other arenas that would touch almost every corner of the globe. Inside you will read about... What Was the Cold War? The Origins of the Cold War World War II and the Beginning of the Cold War The Cold War in the 1950s The Cold War in the 1960s The Cold War in the 1970s The Cold War in the 1980s and the End of the Cold War Both interfered in the affairs of other countries to win allies for their opposing ideologies. In the process, governments were destabilized, ideas silenced, revolutions broke out, and culture was controlled. This overview of the Cold War provides the story of how these two countries came to oppose one another, and the impact it had on them and others around the world.

"Outstanding . . . The most accessible distillation of that conflict yet written." —The Boston Globe "Energetically written and lucid, it makes an ideal introduction to the subject." —The New York Times The "dean of Cold War historians" (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, The Cold War stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of On Grand Strategy.

This is the fifth volume in a multi-volume collection on Soviet-American relations. The goal is to provide a comprehensive collection of documents which explicates and clarifies the evolving political ties between the U.S. and the former Soviet Union.

"This book covers the U.S. Army's occupation of Berlin from 1945 to 1949. This time includes the end of WWII up to the end
