Web Search Engine Ieee Paper

Abstract: In order to make the search engine transfer information efficiently and accurately and do this optimization to improve the web search ranking, beginning with understanding the principle of search engine, this paper exports the specific explanation of search engine optimization. And then it introduces the new website building concepts and design concepts for the purpose of the construction of search engine optimization.

Search Engine Optimization Research for ... - IEEE Xplore

Abstract: Our paper examined the overlap among results retrieved by three major Web search engines for a large set of more than 10,316 queries. Previous smaller studies have discussed the lack of overlap in results returned by Web search engines for the same queries.

Overlap Among Major Web Search Engines - IEEE Conference ...

Abstract: In order to study the retrieval precision of network information and solve the problems existed in search engines this paper analyzes problems and precision in the information retrieval according to experimental data such as image retrieval with different retrieval keywords, and puts forward a new construction of search engine with intelligentization. It comes to a conclusion that many methods can be used to improve the network retrieval precision effectually.
