Willys Hurricane Engine Manual

The Willys F4-134 Hurricane was an inline-4 piston engine and powered the famous Jeep CJ in the CJ-3B, CJ-5, and CJ-6 models. It was also used in the Willys 473 and 475 pickups, wagons, and sedan deliveries. It replaced the Willys Go Devil engine that was used in the MB Jeep and other early Jeep-based models like the Jeepster. This engine was also built by Mitsubishi for their license-built Jeep, as well as other applications.

Willys America L-6 226 Super Hurricane Engine Parts for...

I put one on my 283 chevy engine in my 59 Willys PU. It is an easy installation. Just remove the points and condenser and install the unit. All the parts are internal so from the outside all looks original. The units are made for most distributors, cost between \$50 and \$100, and can be obtained through most mail order performance parts houses.

Jeep Literature on CJ3B info

The CJ-3B introduced a higher grille and hood to clear the new Willys Hurricane engine. A four-speed manual transmission became optional in 1963, at an extra cost of \$194. The turning radius was 17 ft 6 in (5.3 m). Until 1968, about 196,000 CJ-3Bs were produced, of which 155,494 were assembled in the U.S.

Jeep CJ—Wikipedia

The " Super Hurricane " flathead straight-six engine starts and runs like a top. The whole drive train is solid, it has a manual 3 speed transmission with an overdrive also referred to as a " brownie " gear. 4 wheel drive shifts and works good too. Has no problem starting or getting around, even during winter.
